Pro Android UI Wallace Jackson

If you're an Android application developer, chances are you're using fixed, scrolling, swipe-able, and other cutting-edge custom UI Designs in your Android development projects. These UI Design approaches as well as other Android ViewGroup UI layout containers are the bread and butter of Pro Android User Interface (UI) design and Android User Experience (UX) design and development.

Using a top down approach, Pro Android UI shows you how to design and develop the best user interface for your app, while taking into account the varying device form factors in the increasingly fragmented Android environment. Pro Android UI aims to be the ultimate reference and customization cookbook for your Android UI Design, and as such will be useful to experienced developers as well as beginners.

With Android's powerful UI layout classes, you can easily create everything from the simplest of lists to fully tricked-out user interfaces. While using these UI classes for boring, standard user interfaces can be quite simple, customizing a unique UI design can often become extremely challenging.

What you'll learn

- How to design and develop a sleek looking and highly functional user interface (UI) design and experience (UX) design using Android APIs
- What Android layout containers are, and how to best leverage them
- How to design user-friendly UI layouts that conform to Android UI guidelines
- What, when, why and how to use fundamental Android UI layout containers (ViewGroup subclasses) and Android UI widgets (View subclasses)
- How to use new media assets such as images, video, and animation in a UI
- How to create UI Fragments for UI design for specific ActionBar or Activity classes that you wish to create for UI designs within your applications
- Scaling UI Design for the various Android smartphone and tablet form factors

Who this book is for

This book is for experienced Android app developers. It can also be for app developers and UI designers working on other platforms like iOS and BlackBerry who might also be interested in Android.

From reader reviews:

Kristen Hamilton:

This Pro Android UI book is not really ordinary book, you have it then the world is in your hands. The benefit you have by reading this book is information inside this reserve incredible fresh, you will get info which is getting deeper you read a lot of information you will get. This Pro Android UI without we understand teach the one who looking at it become critical in pondering and analyzing. Don't end up being worry Pro Android UI can bring any time you are and not make your carrier space or bookshelves' turn out to be full because you can have it within your lovely laptop even phone. This Pro Android UI having excellent arrangement in word and also layout, so you will not really feel uninterested in reading.

Michael Watkins:

People live in this new day of lifestyle always make an effort to and must have the extra time or they will get large amount of stress from both everyday life and work. So , when we ask do people have spare time, we will say absolutely of course. People is human not really a huge robot. Then we request again, what kind of activity are you experiencing when the spare time coming to you actually of course your answer can unlimited right. Then ever try this one, reading guides. It can be your alternative in spending your spare time, the book you have read is actually Pro Android UI.

Donna Hoffmann:

Playing with family in a very park, coming to see the water world or hanging out with pals is thing that usually you may have done when you have spare time, and then why you don't try point that really opposite from that. 1 activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of information. Even you love Pro Android UI, you may enjoy both. It is great combination right, you still wish to miss it? What kind of hangout type is it? Oh can occur its mind hangout folks. What? Still don't understand it, oh come on its called reading friends.

Theresa Kuykendall:

Is it a person who having spare time subsequently spend it whole day simply by watching television programs or just lying down on the bed? Do you need something totally new? This Pro Android UI can be the respond to, oh how comes? A book you know. You are therefore out of date, spending your spare time by reading in this fresh era is common not a geek activity. So what these guides have than the others?
