Confronting Global Terrorism and American Neo-Conservatism: The Framework of a Liberal Grand Strategy (Collected Courses of the Academy of European Law) Tom Farer

Confronting Global Terrorism and American Neo-Conservatism brings together and subjects to critical scrutiny the core controversies connected to the so-called "War on Terror" such as: When is it legitimate and prudent to use force? Is torture ever justified? Do we need to suspend human rights in order to fight terrorism? Is multi-culturalism the answer to communal conflict? Are terrorists responding to concrete U.S. policies or do they simply wish to destroy Western societies?

In it, the author argues that liberal intellectuals and political leaders have been slow to articulate a grand strategy informed by liberal values for confronting the issues surrounding global terrorism. The book outlines the framework of a liberal strategy, and exposes the costs of the neo-conservative alternative that has driven US foreign policy since 9/11.
