Applied Mathematics and Scientific Computing

Applied Mathematics and Scientific Computing

Proceedings of the second conference on Applied Mathematics and Scientific Computing, held June 4-9, 2001 in Dubrovnik, Croatia.

The main idea of the conference was to bring together applied mathematicians both from outside academia, as well as experts from other areas (engineering, applied sciences) whose work involves advanced mathematical techniques.

During the meeting there were one complete mini-course, invited presentations, contributed talks and software presentations. A mini-course *Schwarz Methods for Partial Differential Equations* was given by Prof Marcus Sarkis (Worcester Polytechnic Institute, USA), and invited presentations were given by active researchers from the fields of numerical linear algebra, computational fluid dynamics , matrix theory and mathematical physics (fluid mechanics and elasticity).

This volume contains the mini-course and review papers by invited speakers (Part I), as well as selected contributed presentations from the field of analysis, numerical mathematics, and engineering applications.

From reader reviews:

Shirley Kistner:

Why don't make it to become your habit? Right now, try to ready your time to do the important behave, like looking for your favorite reserve and reading a book. Beside you can solve your problem; you can add your knowledge by the guide entitled Applied Mathematics and Scientific Computing. Try to stumble through book Applied Mathematics and Scientific Computing as your friend. It means that it can to become your friend when you truly feel alone and beside those of course make you smarter than previously. Yeah, it is very fortunated to suit your needs. The book makes you considerably more confidence because you can know almost everything by the book. So , let's make new experience along with knowledge with this book.
