When an archaeological dig in Britain reveals a first century artefact, the only known relic proven to have belonged to the ancient druids, an unprecedented historical link to the biblical Exodus of Old Testament Egypt is revealed.

A hidden history of Britannia begins to emerge, suppressed for centuries by successive kings, nobles and leaders, terrified at the prospect of their people learning the truthful origins of a society that has been founded on over two thousand years of manufactured lies.

As evidence and proof of The Other Exodus reveals itself, a battle for the suppressed knowledge, power and control of a rapidly disintegrating Britain begins.

With a Prime Minister who has revolution on her mind and an Archbishop determined to introduce a new world order, events quickly spiral out of control, culminating in the breathtaking recovery of an iconic object that has the power to transform not just the history of a nation, but the history of the world.
