Adele Faber and Elaine Mazlish explore the challenges of children's behavior problems, and demonstrate how they can be eliminated with more positive communication techniques. Kids need the chance to learn how to handle problems for themselves, but parents often try and shelter them from all negative experiences. Instead parents should learn how to guide their children through tough situations. This book outlines various methods to communicate with your children, which will help them develop into more self-sufficient and successful adults.

You will learn:

- Which ineffective methods you must avoid when talking to and teaching children
- What you can do to help your children deal with their feelings
- How to gain your children's cooperation without punishing them.
