Method Meets Art, First Edition: Arts-Based Research Practice Patricia Leavy PhD

This book presents the first comprehensive introduction to arts-based research (ABR) practices, which scholars in multiple disciplines are fruitfully using to reveal information and represent experiences that traditional methods cannot capture. Each of the six major ABR genres--narrative inquiry, poetry, music, performance, dance, and visual art--is covered in chapters that introduce key concepts and tools and present an exemplary research article by a leading ABR practitioner. Patricia Leavy discusses the kinds of research questions these innovative approaches can address and offers practical guidance for applying them in all phases of a research project, from design and data collection to analysis, interpretation, representation, and evaluation. Chapters include checklists to guide methodological decision making, discussion questions, and recommended print and online resources.
