The Secret Symbols of the Dollar Bill David Ovason

If you think a dollar bill is most interesting for the cup of coffee it can buy, think again. . . .

Elements of the dollar's complex graphic design date back to the Founding Fathers, and most of us are unaware of its deeper meanings. Now an expert on arcane symbolism uncovers the fascinating secret meanings behind the design of the money we use every day.

In *The Secret Symbols of the Dollar Bill*, David Ovason explores the visual complexity and magic behind the world's most influential currency. Ovason contends that some of the Great Seal's symbols represent the principles of the young republic and that their origins were obscured over time. The dollar bill was more than just currency for our country -- it was structured in such a way to demonstrate the nation's place in the world and the classical roots of its fight for freedom.

Presented in a simple format and written with Ovason's trademark lively style, the book invites readers to take up a dollar bill and set off on a visual adventure. Readers will encounter dazzling explanations of the dollar bill's secret contents, from the symbols derived from the Great Seal through the extraordinary strands of numerology interwoven into its structure to surprising hidden alignments.

David Ovason is a recognized authority in the field of arcane symbolism. His research into the dollar bill reveals hidden biblical and classical references, as well as symbols derived from such societies as the Rosicrucians and Freemasons, both of which engage in esoteric thought. So reach into your wallet and prepare for a history lesson unlike any other.
