Buying a house is expensive and a mortgage can become a heavy burden, particularly when the economy is struggling. This is why many people are looking for alternatives to the modern way of living. The biggest drain on the household income is the mortgage and this can be eliminated by selling the property and using the equity in the house to purchase a motorhome.

The vehicle can be parked up for extended periods of time on an approved site, with electrical hook-up and accessible facilities for showering and toilets; thereby avoiding the need to empty the tanks regularly. This makes it a viable alternative even if you wish to continue to live in the same area that you do now.

Of course, those who wish to explore and who are able to work remotely can benefit from a more nomadic lifestyle, exploring the country or even further afield while continuing to work.

This book will introduce you to the different vehicles that can be used for living on the road and the reasons as to why this is an excellent life choice. There is also a host of tips to help you get started and successfully adapt to a new way of living.
