What does it take to land a job in cultural resource management archaeology?

The predicament of the archaeologist is unique. While there are many willing to do the work, there are few available jobs. The Great Recession only made things worse; however, thousands of archaeologists were able to stay employed.

How did they do it?

Here is the first job search manual written specifically for archaeologists. *Résumé-Writing for Archaeologists* outlines the essential requirements for writing a successful résumé and cover letter, but it also explains:

- How the author got three calls for interviews from companies that had previously turned him down
- How the author helped three archaeologists land jobs in a single week by simply redoing their résumés and job search strategies
- What you should do to get your résumé past applicant tracking software
- Methods for developing a successful networking strategy that will help you land future jobs
- How to strategize a successful job search campaign
- Tips for managing your online persona
- Why you should concentrate on creating your own job and much more.

Learn how long-time CRM archaeologists stay employed using techniques not taught in college. *Résumé-Writing for Archaeologists* was peer reviewed by a number of CRM archaeologists across the United States and professionally edited. After reading this book, you'll have all the basic skills necessary to write a stunning résumé and create a robust professional network that will help keep you out of the unemployment line.

“The work done on my résumé helped me tremendously. Within two weeks of submitting my résumé, not only did I receive several requests for interviews, but actually got hired!” George T., Tucson, Arizona.

“You showed me how to utilize space, organize my accomplishments, and pay attention to details which made my résumé perfect for a reader that doesn't have time to really read my résumé.” Ashley M., Moscow, Idaho.
