Web Component Development with Zope 3: v. 3 Philipp Weitershausen
New Zope 3 is a web applications server written in Python that allows developing complex web applications
rapidly and collaboratively. Zope 3 is the successor to the successful version 2. After an introduction to the
key concepts of Zope, a sample application is built and extended subsequently. The book is targeted towards
developers familiar with the web and web technologies. Special sections for Zope 2 developers cover the
basic differences to the predecessor. The concepts of Zope 3 and its component architecture are explained
thoroughly, continually accompanied by a demo application.
